FOREWORD

The 1977 edition of Student Inventory Data is the twelfth annual publication of extensive data about students attending Ohio's public institutions of higher education.

Reports contained in this publication are for the most part comparable to the previous student profiles. For the first time, data on racial/ethnic characteristics are included in this publication. The reporting of data which will reflect student marital status is now optional; some institutions did not report this element. Information is presented separately for the Main Campuses (four-year campuses) and for Two-Year Centers, which include community colleges, technical colleges, and university branches and centers. Please refer to the Appendix for a list of institutions and their abbreviations as used in the headings of each report.

Any data necessary to coordinate this edition was compiled and processed by Linda Gildow and prepared for publication by Cathy Ellsworth.

"Student Counts - Day and Evening Enrollment by Major Field of Study" is a headcount report relating enrollment status as to whether students are day or evening students and their major field of study, as expressed through reference to a program and sub-program. A day student is defined as one who is primarily a day student, including students who may enroll in selected evening courses outside of a regularly organized evening division or who remain primarily day students in spite of some participation in a regularly organized evening division. An evening student is one enrolled in a regularly organized evening division or program, and whose enrollment is exclusively in courses beginning after 4:00 p.m.

Data for "The Report on Undergraduate Admissions" are furnished by the universities on a term basis, covering all admissions except to graduate schools or colleges, or to schools or colleges of Law, Medicine, Optometry, Veterinary Medicine or Dentistry.

The category, "Number of Applications Received" reports the number of admissions which were processed to the point of filing a completed application form with fee paid, if required. "Applicants Approved for Admission" indicates the number of students actually offered admission to the institution. "Applicants Approved Who Did Not Enter" are the number of students offered admission who did not register for classes. "First-Time Degree Students Entering From High School" are students entering a college-level instruction program for the first time and within one year after graduation from high school. "Other First-Time Degree Students" are students other than those described above who are entering a college-level instructional program for the first time, and "Continuing Students" are students who were enrolled in the institution during the preceding academic period, including students who were absent during the summer, but otherwise have an uninterrupted enrollment. "Returning Students" are former students who are enrolling after an absence of one or more academic periods, except students who have been absent during the summer. "Transfers In" are students admitted by transfer from another institution of higher education, and "Others" are all other students making up the student body.

Data for the "Report of Graduate and Professional Admissions" are reported on an annual basis and are a count of all applications for admission and all students actually admitted to graduate programs and to graduate-professional programs of Medicine, Veterinary Medicine, Law, Dentistry and Optometry.

The category "Number of Newly Admitted Students Holding the Baccalaureate as the Highest Degree" represents only students admitted for the first time to the graduate school or college of the reporting university. Students granted conditional admission to graduate course registration in advance of earning a baccalaureate are not included.
